Other Services

Search Engine Optimization

Thousands of searches are conducted every second for your products or services. With search engine optimization, you can become a primary destination for this demand

Benefits of our Optimization Package

- ◆ Better ranking in Search Engine Result Pages (SERP), by consistently beating competition to higher placements on the following search engines: Google, Yahoo!, and MSN Search (Bing)
- ◆ Receive increased targeted traffic, sometimes double or triple your original traffic
- ◆ Dramatically Improve your Return On Investment (ROI)
- ◆ Improve sales of your products

Our Search Engine Optimization package starts from as low as ₦60,000 for an optimization period of 2 months

Web marketing, Facebook ads placement

Connect your website with the rest of the online world, allow users to connect their online profiles through your website and give them the power to easily share your content

We provide professional advert setup on different media online
Our Advertisement packages are as follows:

- ◆ Facebook Adds: ₦30,000/month
- ◆ Google Adds: ₦30,000/month
- ◆ Facebook + Google Adds: ₦60,000/month

Web Payment Integration

With Web Payment integrated to your website you can accept payments from all Interswitch, Etranzact, MasterCard and Visa Card holders.

The benefits of integrating WebPay to your websites are:

- ◆ Quick, easy and affordable set up of WebPay to your website
- ◆ Receive payments from all MasterCard, InterSwitch, eTranzact and Visa card holders on your website
- ◆ Generate Rebates and Promo Codes for bonanzas and sales
- ◆ Auto-generated electronic invoice per transaction for buyers and business
- ◆ View transaction history

- ◆ Optional ready to use Product Catalogue for businesses that already have websites

Our Web Payment Integration services is offered at a one-time setup charge of ₦30,000 naira for Simple Integrations and ₦170,000 - ₦300,000 for InterSwitch/GTPay Integration.

Project Implementation Scheme.

In order to bring our client's website development project to a speedy and successful conclusion, we apply international project implementation standards and techniques to break down the task into four. phases

These are:

S/N	TASK PHASE	TASK DESCRIPTION (DMS)
1	Phase 1	Development & Customization
2	Phase 2	Deployment and Testing
3	Phase 3	Technical and User Training
4	Phase 4	Post-Implementation Support

User and Technical Training Scheme

Our Technical and User Training, involves comprehensive User and Technical training on the administration of the website. Our Technical Training scheme includes the following;

- ◆ Provision of a PDF version of the software user manual
- ◆ 1 day user training (4 hours session)
- ◆ 3 Months technical support
- ◆ Live-time E-mail and Telephone Support
